**Collaboration
has always been
at the heart of
our work—and in
2024, it became
even stronger.**

One Safe Place reached a significant milestone last year: on January 1, 2025, The Ladder Alliance—a community leader in education and job training for survivors—officially became part of our organization and is now operating as *The Ladder*, a program of One Safe Place. The merger will expand our ability to help survivors achieve financial stability and long-term safety through workforce readiness and empowerment.

Throughout 2024, more than twenty five One Safe Place Family Justice Center partner agencies worked together in one place to provide holistic, life-saving services to survivors. Together, we developed innovative solutions to address domestic violence, trafficking, and community violence and make our community safer.

We are deeply proud of the life-saving work happening every day at One Safe Place. To our partners: your impact does not go unnoticed. In 2024, we saw an 81% increase in total client visits and a 35% increase in referrals to partner agencies—a powerful testament to the power of partnership and the trust survivors place in us.

This report reflects the progress we made to prevent violence, support healing, and improve outcomes for families in crisis. We expanded services for survivors of near-fatal strangulation and deepened our support for children and youth exposed to violence in the home.

We also navigated new challenges in an evolving landscape. Some initiatives—particularly those serving underserved populations—faced unexpected disruptions in support. Still, our commitment to provide expert life-saving, life-changing services for all who need us has never wavered.

Thank you for your continued partnership. Together, we are creating a safer, more resilient community—for all of us.

Sincerely,

What sets us apart?

Our core values:

Safety

is a basic human right. Every human being has the right to be free from the fear of violence. Community violence and intimate partner violence are intrinsically linked.

Respect

is meeting survivors where they are. It means believing their stories, honoring their dignity, and walking alongside them with compassion. Respect requires trauma-informed care, cultural humility, and a deep commitment to serving marginalized and underserved communities with skill and heart.

Justice

demands accountability and equity. Domestic violence must have consequences, and communities must have systems in place to prevent the most dangerous outcomes. We work toward a future where safety and fairness are not privileges, but guarantees.

Hope

is the foundation of resilience. It's the belief that the future can be brighter than the past—and the knowledge that we each have a role in making it so.

Excellence

means doing what works—and doing it together. We are committed to evidence-based practices, cross-agency collaboration, and a culture of transparency and accountability.

FAMILY JUSTICE CENTER

A family justice center brings together a multi-agency network, under one roof, dedicated to providing coordinated services to survivors of domestic violence and human trafficking.

CHILDREN'S PROGRAMMING

443

(77% INCREASE)

PATHWAY PARTICIPANTS

Pathway activities are monthly enrichment activities designed to create positive experiences for children and youth. Activities consist of roller skating, team building, STEAM focused activities, volunteering, and healthy relationship skills-building.

277

(83% INCREASE)

GROWING HOPE

Growing Hope teaches our children and youth foundational skills for self-compassion, self-regulation, setting boundaries and goal planning. After each session, each child takes home a connection activity to be conducted with a parent/guardian to apply newly learned skills outside of the classroom.

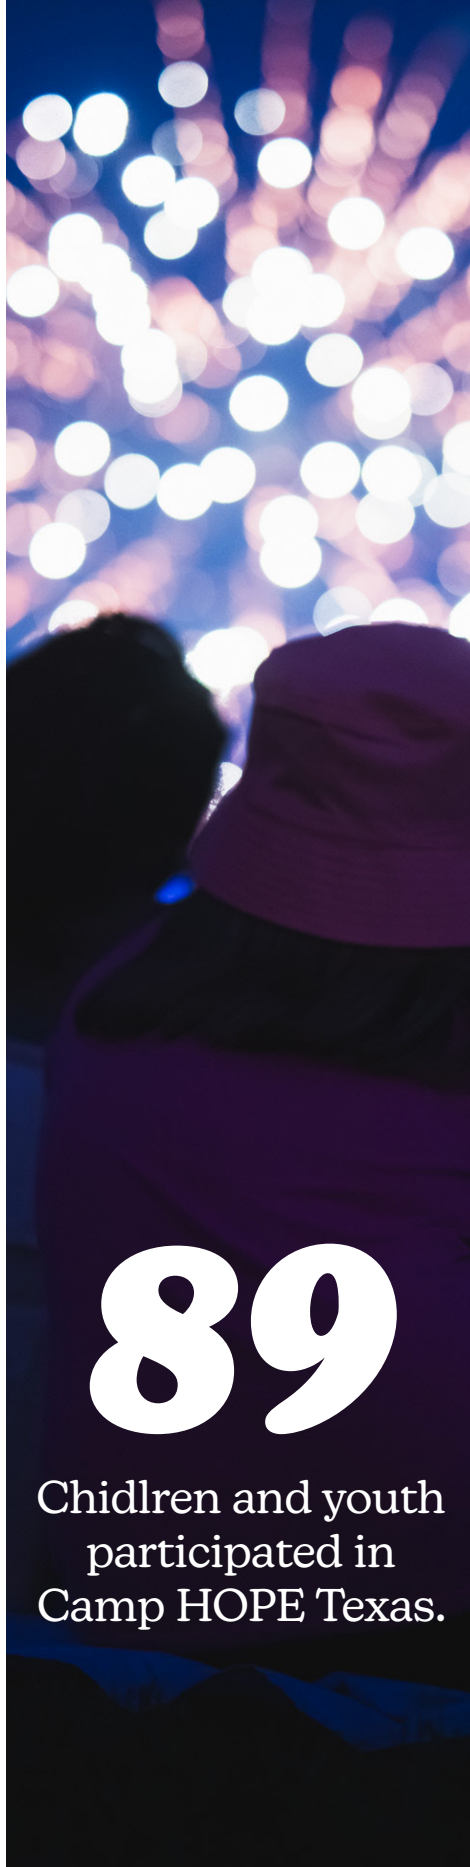

139

(173% INCREASE)

INDIVIDUAL COUNSELING

Individual and/or Family Counseling provides children and families the skills and methods necessary to manage their emotions and navigate traumatic and stressful situations. Counseling promotes a higher level of self-esteem and self-confidence, can improve social skills, and works to ease the transition between stages of life.
